

***Effective communication,  
both day and night***

**Designed for all shipping and receiving areas. Improves loading dock safety and protects dock equipment and building walls.**

### ***Reliable Brightness***

Ultra-bright high-efficiency LEDs are amplified by optical LED lenses. The lights can be seen in all conditions, including direct sunlight.

### ***Long Lifespan***

Low voltage units with a wide input range of 12-24 VAC/DC feature on-board power supplies. As a result, they generate constant, consistent brightness that is not affected by fluctuating supply voltages.

### ***Water Resistant***

Lights are manufactured with housing materials designed to withstand all weather conditions, including long sun and/or rain exposure.

### ***Low Profile***

Designed to mount discretely to the wall so as to avoid any accidental impact. It's narrow profile also allows it to fit into the tightest of spaces.

### ***2 Year Limited Warranty***

## Stop and Go Traffic Light

Part #032-806 12-24 VAC/DC

### Product Details

- Provides a high quality light with no glare
- Energy efficient and easy installation
- Service free – no need to replace bulbs or lenses
- Shallow body depth with integral lens visors for extended visibility
- 2-year limited warranty
- Polypropylene housing will not rust, pit or corrode
- 12-24 VAC/DC and 0.075 AMPs
- Other voltages available
- Yellow housing optional - #032-807 12-24 VAC/DC

## Dimensions

## Low Profile LED Traffic Light

Part #032-461-1 115 VAC, 032-461 24 VAC/DC

### Product Details

- 1/2" thick High Density Polyethylene
- 20 red LEDs, 20 green LEDs set in 4" circles
- Low-profile design eliminates impact damage
- LED lights are good for 100,000 hours or 10 years of continuous use
- Provides a high quality light with no glare
- Uses 30% less energy
- Recessed LEDs are shock and vibration-proof
- LEDs produce no heat
- Service free – no need to replace bulbs or lenses
- 1-year limited warranty on entire unit
- Requires 24V or 120V
- Will not rust, pit or corrode
