

# BG670 FOAM FRAME EXTREME

## FEATURES AND SPECIFICATIONS

The Foam Frame Extreme (BG670) combines the cutting-edge Rain Shroud Max with the resilient Foam Frame Dock Shelter, delivering an optimal solution for docks that demand weather resistance and adaptability. Featuring a fully integrated Rain Shroud Max head frame, it effectively channels rainwater away from the dock, ensuring a safe, dry work environment.

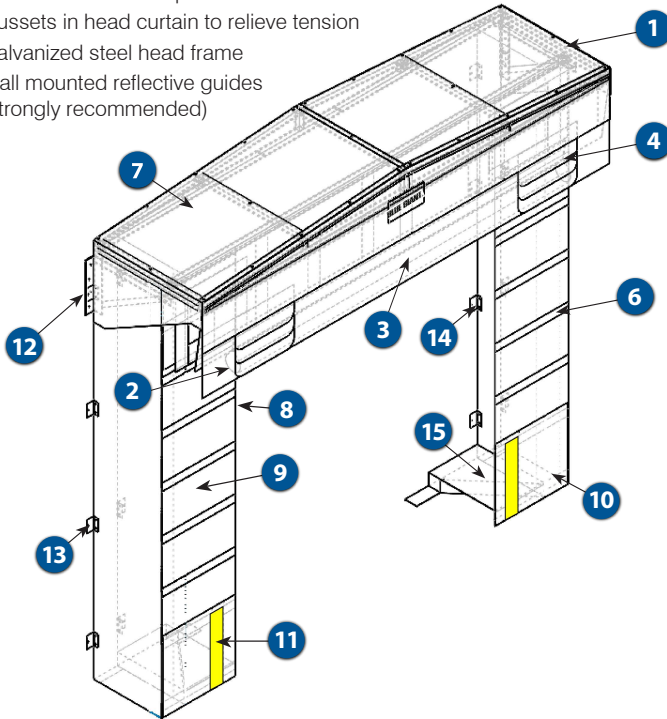

Ideal for 10' wide x 10.5' high door openings, it's a perfect fit for highway trailers with roll-up doors and tailgate trucks. The side curtains work seamlessly with the pivoting head pad, minimizing gaps and reducing pressure for enhanced sealing and durability.

### STANDARD FEATURES:

- The self-adjusting weighted foam pad ensures a tight seal against rainwater and accommodates up to 12-inch variance in trailer heights, providing effective coverage and allowing customization based on specific dock requirements.
- Curtains are made from TearResist™ Vinyl and include fiberglass supports which complete the seal and maintain continual pressure against the trailer.
- Two vertical foam side pads designed to withstand trailer impact
- Replaceable vertical curtains, enabling easy maintenance
- Steel header frame with PowderCoat™ finish and galvanized top sheet metal
- High-visibility yellow guide stripes
- Reinforced double layer on bottom of side curtains
- Replaceable foam bottom draft pads for sealing gap between truck and building
- Galvanized mounting brackets and hardware †

### ADDITIONAL OPTIONS INCLUDE:

- Extra projection
- Wood build-out box
- Additional drop in head curtain
- Pressure-treated wood back board
- Steel backer for side pads
- Gussets in head curtain to relieve tension
- Galvanized steel head frame
- Wall mounted reflective guides (strongly recommended)
- Additional width on head curtain
- Additional width on side curtain
- Tapered side pads to suite driveway slope
- ArmorShield™ reinforced wear flaps

BG670 Foam Frame Extreme

For maximum value and performance, the BG670 can be constructed from our premium durability fabrics (see chart for materials, weights, and available colors).
