

Stationary Inflatable Shelter

BLUE GIANT®

Strong, friction-resistant design.
Superior climate control.

STANDARD FEATURES

- A** Pressure treated framing resists rot †
- B** Raked head frame diverts water to sides
- C** Protective steel guards
- D** Replaceable foam bottom pads seal gap between truck and building wall †
- E** Yellow guide stripe ensures accurate placement of trucks
- F** Translucent polyethylene sheeting with UV inhibitors allows light into loading dock area
- G** Galvanized trim angle will not rust
- H** "STOP" logo on side air bag to prevent trailer from entering dock area if bag is accidentally left inflated
- I** Air bag storage curtains prevent damage to air bag when retracted by any misaligned trailer

†Not all features visible in photo.

Built to Suit Your Dock Door

- The standard size inflatable shelter unit is designed (but not limited) to suit units up to 11' (3353 mm) wide by 11' (3353 mm) high

Solid Seal for High-Traffic Loading Docks

- Designed to seal a wide variety of trailers ranging from 144" to 162" (3469 to 4115 mm) high and 96" to 102" (2438 to 2591 mm) wide
- The design of this unit seals the top and sides of the trailers allowing full unrestricted access to the rear of the trailer when loading and unloading
- This unique design virtually eliminates wear and tear from incoming trailers as the air bags are inflated after the trailer has docked, and deflated before the trailer departs
- An oil tempered retraction spring deflates the header air bag when not in use
- A 115V ½ HP continuous running motor and blower assembly inflates the air bag system

Options

- Galvanized frames with galvanized sheeting
- Additional projection
- Additional drop on header air bag
- Reflective guides (for accurate truck placement)
- Other voltages available – consult factory

Galvanized trim angle.

Unit shown non-inflated - appears as a fixed truck shelter.

Building Loading Dock Solutions

Increased Safety and Performance Options

A: Dock Leveler: Blue Giant offers a comprehensive line of dock leveler models to suit the most challenging application and capacity requirements. Available in pit style or vertical storing designs, as well as hydraulic, air-powered, and mechanical models.

B: StrongArm™ Vehicle Restraint: Blue Giant vehicle restraints lock trailers securely into position at the loading dock, providing a solid defense against trailer creep or premature truck departure. Hydraulic, electric, and mechanical models available.

C: Advanced Lights Communication Package: Control panel LED lights and low-profile weatherproof traffic lights keep truck drivers and warehouse employees advised of equipment status. Additional safety provided by mirror-image driver warning signs.

D: Dock Bumpers: Protect your building walls and incoming trailers with Blue Giant dock bumpers. Available in “molded” and “laminated” styles, with an optional steel face plate available, depending on the specific model.

E: Blue Genius™ Touch Control Panel: Revolutionary touch controls allow an entire dock system to be operated from one safe and convenient location. Features rapid-response touch buttons and keypad and an LCD screen that displays real-time operational and troubleshooting instructions.

F: Wheel Chocks: OSHA-recommended for an extra degree of dock safety, Blue Giant wheel chocks manually lock truck wheels in place, preventing shifting or moving during cargo handling. Rubber and laminated versions available.

G: Reflective Guides: Blue Giant Reflective Guides clearly identify the dock location in all weather conditions, safely guiding incoming trucks into the correct position.
