

JIB ARMS

WORKSTATION

ERGONOMIC

SOLUTIONS

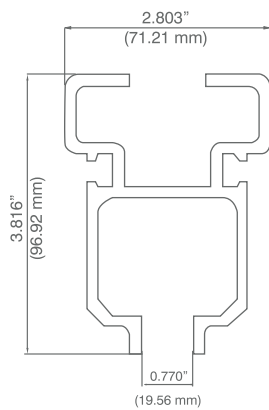

- Ideal for Supporting Balancers and Tools
- Covers Tight Areas Where Rail System is Not Feasible
- Boosts Productivity in Plant or Warehouse
- Radial Coverage 4 ft. to 20 ft.
- Rotational Range 220 to 360 Degrees
- Capacities of 300, 800 & 1350 lbs.
- 16' Columns & 12' Booms
- Includes Aluminum Rail, Rail Kit and Bridge Crane Kit

CORMAC

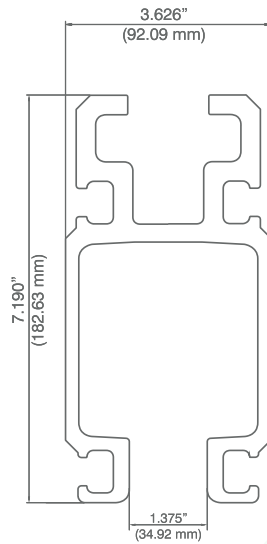

ALUMINUM RAILS

- Robust, safe, lightweight and ergonomic, aluminum rail systems.
- Engineered to exceed industry standards
- Corrosion free natural aluminum surface
- They can be installed easily and quickly, creating time and cost savings.
- Designed to reduce dirt accumulation on rolling surface
- Redundant rail end caps to absorb trolley impact and enhance safety

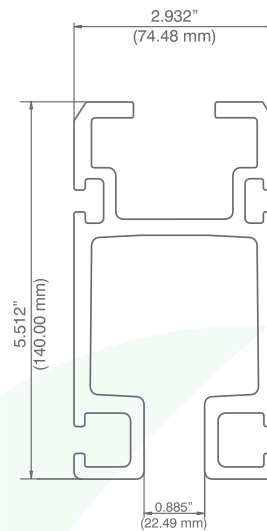

EPR-90 Rail

Light Cap. Max. 250 lbs. (115kg)

EPR-180 Rail

Heavy, Cap. Max. 2000 lbs. (950 kg)

EPR-140 Rail

Medium, Cap. Max. 1400 lbs. (640 kg)

ACCESSORIES

TROLLEYS

All trolleys are equipped with double guide wheels and heavy-duty bearings. Includes redundant rail safety plugs to prevent trolley from being pulled through the rail.

High quality polymer wheels offer a long service life without deformations, even under maximum load for long periods with static load.

Rails Kit (included): Filter regulator, shut-off valve, helical hose assembly, straight hose assembly, hose connections, steel cable line, eyebolt, air bracket assembly, and fixing clamp.

Bridge Crane Kit (included): Helical hose assembly, straight hose assembly, hose connections, steel cable line, eyebolt, air bracket assembly and fixing clamp.
