DECAL IDENTIFICATION AND LOCATION

7 **⚠ DANGER**

Do not remove the release pin from the safety stand unless authorized personnel have confirmed that the hydraulic cylinders, valves and hoses have been properly installed and filled with fluid. Failure to do so will result in serious injury or death. Refer to Owner's Manual for proper procedure.

Ne pas retirer le piquet de déchargement du support de sécurité, sauf si les personnes autorisées ont confirmé que les cylindres hydrauliques, vannes et les hoses ont été installés correctement et remplis d'huile hydraulique. Ne pas le faire peut entraîner une blessure grave ou la mort. Consultez le manuel de propriétaire pour les procédures appropriées.

8 **⚠ DANGER**

Do not remove the lockout pin from the maintenance area unless authorized personnel have confirmed that the hydraulic cylinders, valves and hoses have been properly installed and filled with fluid. Failure to do so will result in serious injury or death. Refer to Owner's Manual for proper procedure.

Ne pas retirer le piquet de verrouillage de la zone de maintenance, sauf si les personnes autorisées ont confirmé que les cylindres hydrauliques, vannes et les hoses ont été installés correctement et remplis d'huile hydraulique. Ne pas le faire peut entraîner une blessure grave ou la mort. Consultez le manuel de propriétaire pour les procédures appropriées.

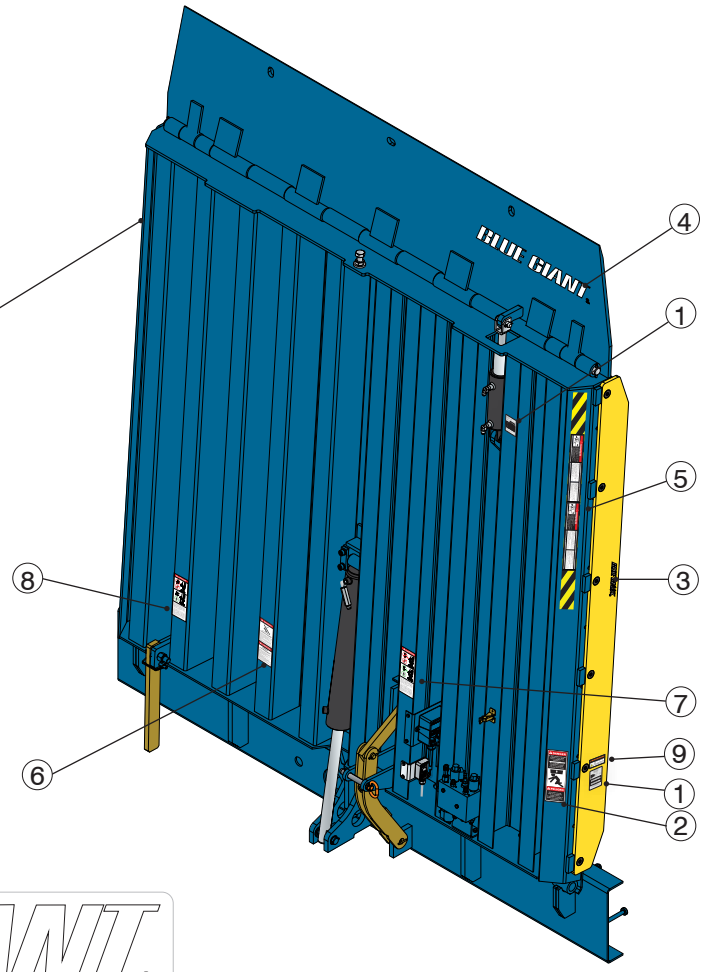

6 **⚠ DANGER**

CRUSH HAZARD

Do not stand between the dock and the truck. Do not stand between the dock and the truck when the dock is being lowered. Do not stand between the dock and the truck when the dock is being raised. Do not stand between the dock and the truck when the dock is being lowered. Do not stand between the dock and the truck when the dock is being raised. Do not stand between the dock and the truck when the dock is being lowered. Do not stand between the dock and the truck when the dock is being raised.

RISQUE D'ÉCRASEMENT

Ne pas se tenir entre le dock et le camion. Ne pas se tenir entre le dock et le camion lorsque le dock est abaissé. Ne pas se tenir entre le dock et le camion lorsque le dock est relevé. Ne pas se tenir entre le dock et le camion lorsque le dock est abaissé. Ne pas se tenir entre le dock et le camion lorsque le dock est relevé. Ne pas se tenir entre le dock et le camion lorsque le dock est abaissé. Ne pas se tenir entre le dock et le camion lorsque le dock est relevé.

5 **⚠ DANGER**

SAFETY INSTRUCTIONS

OPERATION

1. Read and follow all instructions and warnings in user's manual.
2. Use of dock leveler restricted to trained operators.
3. Always chock trailer wheels or engage trailer restraint before operating dock leveler or beginning to load or unload.
4. Never use hands or equipment to move ramps or lip.
5. Before activating dock leveler:
 - Ensure trailer is backed in against bumpers.
 - Remove any and all loads if required.
 - Check trailer alignment to avoid lip interference. If lip does not lower to trailer bed, reposition vehicle.
 - Ensure truck bed supports extended lip or leveler frame supports ramp before driving on ramp.

MAINTENANCE SERVICE

1. Read and follow all instructions, warnings and maintenance schedules in user's manual.
2. Maintenance/service of dock leveler restricted to trained personnel.
3. Place barriers on driveway and dock floor to show service work is being performed.
4. DO NOT ENTER PIT unless dock leveler is securely supported by maintenance strut.
5. If electrically powered turn off and use OSHA lockout/tagout procedures.

Failure to follow posted instructions will result in death or serious injury. Call 1-(800)668-7078 for replacement placards, warning labels, or user's manual.

UNsupported dock leveler ramps can lower unexpectedly. Before allowing vehicle to leave the dock, always:

- Ensure no equipment, material or people are on dock leveler.
- Return dock leveler to its stored position at dock level.

Un niveauur s'abaisse de façon inattendue. Avant de permettre au véhicule de quitter le quai, toujours:

- S'assurer qu'aucun matériel, matériel ou personne n'est sur le niveauur.
- Retourner le niveauur à sa position de repos au niveau du quai.

Un défaut de suivre ces instructions peut causer la mort ou de graves blessures.
